

WASPI drop-in session for MPs

In March 2024, the Parliamentary Ombudsman asked MPs to intervene to ensure the prompt delivery of an apology and compensation to 1950s-born women affected by the Government's failure to properly communicate increases to women's State Pension age.

WASPI has been overwhelmed with strong cross-party support for fair and fast compensation across Parliament and with seven-in-ten Brits backing the campaign, we are working constructively to identify a financial redress solution that works for WASPI women and the taxpayer.

With thousands of affected women in your constituency, I very much hope you can join us to speak with campaigners and APPG members, where there will also be an opportunity for photographs.
